FINEA

CUBICLE RANGE

FEATURES

FINEA CUBICLES

Stylish Curved Aluminium Fascias

Three Panel Options

- **Glass Panels**
A choice of coloured and tempered safety glass adds a whole new dimension to your project whilst remaining safe for the end user
- **Compact Grade Laminate Panels**
Totally impervious to moisture, these panels offer a lower cost alternative to glass whilst offering the durability of glass for all areas
- **High Pressure Laminate Panels**
A lower cost alternative to glass or compact grade, not recommended for use in wet or humid areas

Spring controlled hinges ensure glass doors are protected from excessive stresses

Specially commissioned "smooth operation" fascia mounted indicator bolt

Totally unique "circular" support leg

Supplied with specification, guidance and technical information for simple and quick installation

DESCRIPTION

FINEA CUBICLES

Finea represents the next evolution of this prestigious cubicle system. Designed with complete flexibility in mind, this system can be specified with glass panels, compact laminate panels, high pressure laminate panels or a combination of all three to suit every client's budget.

Finea uses the latest environmentally friendly finishing processes to produce a stunning range of effects including black chrome, satin chrome and stainless steel. These combined with a myriad of powder coating colours and textures allows you to design a different look for every project.

Finea can be combined with our range of lockers and bench seating, allowing the whole project to be completed through a single supplier.
