GOWNA CUBICLE RANGE

The Gowna cubicle system has been specially designed for use in demanding high usage areas - changing areas, washrooms & public toilets.

It combines great strength with aesthetically pleasing lines, creating an attractively designed system that is very effective against the wear and tear of high usage areas.

Gowna is available in a range of durable powder coated colours, which ensures the system is suitable for a variety of projects.

CHILD SAFE & VANDAL RESISTANT

The Gowna system offers child safe anti-finger trap door design, which is an important consideration for areas where children of all ages may be using the facilities.

The Gowna system also features vandal resistant doorframes, with heavy duty, anti-lift off, hinges that will withstand an array of punishing environments.
