SHEELIN CUBICLES

The System

A flexible Aluminium system that is attractively priced, offering style, elegance and outstanding in-service durability.

Featuring exclusive new designs throughout, the Sheelin cubicle combines an array of exquisite slimline pilasters with a stylish headrail arrangement, and futuristic indicator bolts. A superior strength hinge design ensures rigidity of structure and is complemented by hidden door fixings. This attention to detail ensures that the system radiates with sophistication and quality.

The Sheelin cubicle offers a one stop solution for Architects and Specifiers needs. To meet the ever increasing demands and challenges placed upon the market place, the system can be adapted to give additional privacy or increased security.

Designed to compliment the most prestigious of executive wash-rooms or wet room environments, the Sheelin cubicle can give a traditional, contemporary or ultramodern look, that can be colour co-ordinated to suit all tastes.

Fittings and Finishes

Fittings are of a 'bolt through nature' with full partition height wall channels supplies for increased strength and durability. Finished in a range of colour coordinated polyester powder coating colours, that are applied in accordance with ISO9001 accreditation, guaranteeing a superior product life span.

Wheelchair Accessible Cubicles

Wheelchair accessible cubicles can easily be incorporated into the system to ensure that provisions for all are met. The system with optional grab rail products, allows for the accommodation of the latest 2004 DDA Regulations and Doc M requirements, the purposely engineered indicator bolt surpasses present day legislation by taking into consideration the needs of the visually impaired.

On site Installation

Supplied pre drilled, this ingenious system simplifies on site installation reducing attendance time by up to 30%.
