- Suitable for 12-13mm and 19-21mm panels
- Available in a range of NEW durable but striking metallic powder coat finishes
- Unique outward opening cubicle configuration
- Supplied with fixing instructions and technical information for easy installation

DESCRIPTION

Working in close harmony, our designers and engineers have created a unique system, equally at home in the most prestigious of buildings as the local leisure pool.

Strong, curved aluminium profiles and colour co-ordinated panels, produce a most striking visual effect.

CORRIB's unique design allows inward and outward opening cubicles to be placed side by side. This provides the ability to incorporate "Disabled" cubicles without altering the external appearance. The CORRIB indicator bolt is also easily operated by people of all ages and abilities.

An optional security "anti-vandal" fixing kit is available for areas prone to vandalism.

The profiles are available in an infinite choice of colours and combined with a multitude of laminates, melamine's, solid laminates, textures and patterns, CORRIB remains the most versatile, adaptable system on the market.

CORRIB would be ideal for, but not limited to: offices, restaurants, hospitals, health clubs, leisure centres, swimming pools, colleges & universities.
